

Product Discontinuation Notification

Mirage Series Detectors

Texecom is discontinuing the Mirage Series of motion detectors.

The Mirage Series pioneered s-band dual technology motion sensing technology but has been superceded by the superior Premier Elite range of detectors.

As a consequence, the vast majority of Texecom customers are already using the widely acclaimed Premier Elite DT dual technology detector.

Texecom have offered our distribution partners a last time buy offer for the Mirage Series for a limited time period. **Please contact your distributor with your immediate requirements.**
