

COVID-19 - Safety in the Workplace at Texecom

Everyone is entitled to work somewhere they feel safe.

Texecom has put measures in place to keep employees safe during the outbreak of COVID-19. We have enforced several procedures and precautionary measures to limit the opportunity of further viral spread and allow everyone to continue working to the best of their ability, in a clean and safe environment.

We confirm we have complied with the government's guidance on managing the risk of COVID-19 by doing the following:

- We have carried out a COVID-19 risk assessment and shared the results with the people who work here
- We have cleaning, handwashing and hygiene procedures in line with guidance
- We have taken all reasonable steps to help people work from home
- We have taken all reasonable steps to maintain a 2m distance in the workplace
- Where people cannot be 2m apart, we have done everything practical to manage transmission risk

To ensure our approach is correct we have undertaken a risk assessment at all sites and have been closely following the advice of the organisations below:
